Minutes

1. Discussion of YSA's Future

Orion: We're uncertain of YSA's ability to continue moving forward, given the committee currently consists of 3 people effectively and we're all planning on leaving due to overwork and getting very little out of it.

Ben Tilley: I'm a YSA alum and I'd hate to see it go away! I have contacts in education who'd I'd be happy to connect with, see if we can spread the word.

Kai: Same here, I know some people and even though I've aged out I'd be happy to support committee by offloading some of the work.

Orion: So it sounds like we want to maintain YSA, so we'll discuss what we can do.

2. Discussion of Plans for Revival (option 1)

Ben Tilley: I have contacts in education who can help

Orion: I know some people at John Monash Science School who may be able to get the word out to science interested students

Maxwell: I know some current JMSS students and may be able to get the word out too

Orion: A large part of the problem is the vicious cycle of the committee being understaffed and overworked, so we don't have the time or energy to plan things, which means there are longer gaps between events, so people lose interest. Thus fewer people join, we have fewer people for committee, and it spirals.

Kai: I'd be happy to help with some of the workload, even though I'm too old to rejoin.

Orion: Any help is appreciated, we need it! We're running MYSci at Monash next week and it's going to be a struggle, we have something like 8 volunteers. But if we can pull through we can use it to get more people!

3. Discussion of Winding Down (option 2)
